CORONER WILL

Inquiry to Be Made Into the Death of Wealthy Young Bostonian.

to New York the same day. From New York it was taken to Ridgefield Park, N. J., the same day, and has been lying in the rooms of an undertaker since that time.

The decision to probe further into the case for many months. The rela-tives of the dead man had expressed dissatisfaction with the manner in which the case was disposed of at the time of death, and it was on their initiative that the investigation was begun and continued until the New Jersey officials decided once more to take the matter in hand.

Died at Friend's Home.

Baker left a fortune estimated at For several years before his death he had been well known in New York as a frequenter of fashionable restaurants and cafes. During his frequent visits to this city he often made his headquarters at the home of his friend, Frank Hurd, at Bogota. It was at Hurd's home that he died, after being stricken suddenly ill in a New York restaurant, and Hurd's young daughter, Natalie-a little child-was the principal beneficiary, under Baker's will, the bequest to her being \$200,000. The little girl never came into possession of her fortune, however. In the first place the will was disputed by Baker's relatives, and that contest has not yet been decided by the courts. In meantime the child was stricken with scarlet fever and died on Feb. 21, after an illness of five weeks.

Expert Discovers Arsenic.

Baker died on Oct. 27 last within an hour after he had been removed to the Hurd home in Bogota from the New York restaurant, where he was stricken, and the body was embalmed before daylight. An examination of the viscera and the internal organs was made by Dr. William Boose chusetts general hospital, who reported that he found large quantities of arsenic in the body. Mr. and Mrs. Hurd have left their Bogota home and are living in this

In reply to questions, Mr. Lilley refused to give the names of members who, he claimed, had received from the members against whom large sums had given

Mr. Lifley stated, in reply to a question by Mr. Dalzell, that he expected to prove that wrongful methods had been used by the Electric Boat company to secure legislation by influencing m bers of congress. He further said that his statements were not vague ones; that they have been constantly and continuously in the air for about fifteen years; and that he would be very glad to indicate the particular parties as soon as the resolution of inquiry should be passed and the committee named.

Congressman Questioned. During the examination of Mr. Lilley,

Speaker Cannon asked him: "Do you allege corrupt action against members of the present congress?" BODY BURIED LAST OCTOBER says," replied Mr. Lilley. Mr. Dalzell asked:

> In reply to a question by Mr. Dalzell, asking him if he meant that money has been paid to members of congress to influence their vote, Mr. Lilley said:

What He Will Prove.

"I do not claim that money has been paid to bribe a member of congress. 1 do expect to prove that money has been contributed to campaign funds, which morally is not different from passing a bribe across the table in com mittee rooms when we take a vote. Morally there is not a particle of difference; logically there is."

Shortly after the adjournment of the

house, Chairman Boutell got his committee together and partly organized it. He said afterward that the organization would be completed at a meeting to be held tomorrow when the question of whether to make the committee's session public or private would be decided. A report that Representative Lilley was greatly incensed by the action of Speaker Cannon in not making him a member of the committee, and that he had expected to be named as its chairman, gained circulation and become a topic of discussion after the committee assignments had been announced.
